School Development & Improvement Plan November 2017 - March 2019

Following the autumnal Ofsted inspection (overall assessment - GOOD) the staff and Governors have outlined the following priorities for School Development for the period November 2017 to March 2019.

1. Continuing to review provision, especially that in Yr 2, to ensure its fitness for purpose
2. Embedding the new Leadership structure and ensuring its continuing and developing efficacy
3. Reviewing Assessment systems and making improvements as deemed necessary
4. Improving the school's interior and exterior environment and resources
5. Reviewing academic and support staffing and structures to ensure its fitness for purpose for the future
6. Developing strategies for improvement that will support the school's transference to, and operation within, a MAT
7. Constructing a Governors' Development Plan that ensures Governors continue to build the ways in which they develop a corporate approach to contributing to the strategic management and improvement of the school by offering appropriate monitoring and challenge as well as support.
